The event will give all an opportunity to meet coaches and executives, answer questions about the Ontario Provincial Football League (OPFL), and to learn about how the team will be built and the steps we will take to field a competitive team right from the beginning.

The coaches and management hope to see as many people as possible come and learn about this exciting new football opportunity. Hope to see as many familiar faces as possible as well as players and families who want to experience football in a whole new way.
