Grade Three Immersion Team!

I hope everyone had a restful and restorative summer in the sun (and rain)! My name is Mrs. Wolynice and I have the pleasure of being one third of your child's teaching team along with Mme Parent and Mrs. Mousseau! I am your child's math teacher and I will have the grade three immersion class five days a week from 10:40 – 11:40.

The students inspire my teaching every day and I treasure their differences, curiosity and learning styles. Nothing warms my heart and

inspires me more than hearing a child say "I LOVE math"!

Math is Marvelous

Each month I will be communicating through the school website, math calendars, a S.T.A.R. folder and/or my blog (<http://mrswolynice.blogspot.ca>). When the S.T.A.R. folder comes home simply sign it, remove the work, and return the empty, signed folder back to school. The math calendars will have many games, activities, videos, etc..., that make up the math homework for the month. More information about these learning tools will come shortly.

We will continue to develop our positive math attitudes and "Growth Mindsets" this year through exploration, problem solving, songs, games and so much more! Children listen closely to their parents (not always when we want them to) so please share only positive math experiences and stories with your child. So many of us have had negative math experiences that influence our attitudes towards math but rather than sharing those experiences encourage your child to talk about the math tools they used, questions they explored, games they played, and the songs they danced to, ...for starters!

I want every student to love and feel successful in math (and with any luck the parents too)! For more information check out my YouTube channel (Growth Mindset & Jo Boaler - Brain Science) or the following QR Codes. (All you need to do is download a free QR code reader on your phone or portable device.)

Please contact me at anytime with questions or concerns! I'm always happy to discuss your child's progress (you don't have to wait for report cards or interview times). Call the school, stop by for a visit or send me an email.
